SUMMARY

As a Data analyst with a strong foundation in physics, maths, machine learning, and programming. Skilled in Python, SQL, and data visualization tools like Matplotlib and Tableau. Experienced in developing predictive models, performing exploratory data analysis, and communicating insights through clear reports and dashboards. Passionate about leveraging data to solve real-world problems and eager to contribute analytical and technical skills to a dynamic team.

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Frameworks:** Pandas, Numpy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras
- **Tools:** MySQL
- **Platforms:** Linux, Web, Windows
- **Soft Skills:** Leadership, Decision Making, Quick learner, Public Speaking, Time Management

EXPERIENCE

- **Luminar Technolab** Remote
Data Scientist Intern (Present) May 2025 - Dec 2025
 - **Exploratory Data Analysis (EDA):** Identified trends and patterns using Python (Matplotlib, Seaborn, Plotly), SQL and Power BI
 - **Data Cleaning Preprocessing:** Processed and cleaned large datasets using Python (Pandas, NumPy), SQL, improving data accuracy.
 - **Machine Learning:** Developed predictive models using scikit-learn for [specific task, e.g., price prediction, sales forecasting].
 - **Dashboard Creation:** Designed interactive dashboards (Power BI) to visualize key metrics for stakeholders

EDUCATION

- **Bachelor of science - Physics; CGPA: 8.312:**

CERTIFICATIONS

- Python Basic(Hackerrank)- August 2025
